

PRATEEK BAJPAI

Full Stack Developer

Gwalior, Madhya Pradesh | +91 77728 87731 | prateekvajpai1854@gmail.com

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and maintaining MERN applications using React.js, Node.js, Express.js, JavaScript (ES6+), TypeScript, MongoDB, and MySQL. Skilled in reusable component architecture, REST API integration, authentication and authorization, payment workflows, responsive UI, and production support. Translates business requirements into maintainable features for research publishing, consulting, and e-commerce products.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Redux, Material UI, Framer Motion, Responsive Design, Flexbox, CSS Grid

Backend & APIs: Node.js, Express.js, REST APIs, JWT, RBAC, OAuth, OTP Authentication

Databases: MongoDB, MySQL

Payments & Tools: Razorpay, Git, GitHub, Postman

PROFESSIONAL EXPERIENCE

Full Stack Developer | Lord-Tech Datus Solutions Pvt. Ltd. | Aug 2025 - Present | Gwalior

- Built and maintained React.js and Node.js/Express websites for company and client work, including 3 dynamic modules: team profiles, service listings, and content pages.
- Integrated REST APIs and secure frontend-backend data flows with input validation and consistent loading and error handling.
- Standardized responsive interfaces across 3 viewport categories - mobile, tablet, and desktop - using Material UI and modern CSS.
- Translated requirements from research and consulting stakeholders into production features and supported 2 release stages: deployment and post-release monitoring.

SELECTED PROJECTS

LordJournals - Research Publishing Platform | React.js, Redux, REST APIs | Aug 2025

- Applied 3 frontend engineering practices - reusable components, optimized state updates, and efficient rendering - to improve maintainability and interface responsiveness.
- Integrated API-driven features with consistent loading and error handling, and converted stakeholder requirements into modular UI components.

Academic Journal Management System | React.js, Material UI, JWT, RBAC | May 2025 - Jul 2025

- Implemented JWT authentication with role-based access control to separate user and administrator permissions.
- Built a responsive admin dashboard for 2 core workflows: user management and submission management.
- Added lazy loading and code splitting to reduce initial application load and improve navigation efficiency.

QuickCom - E-Commerce Web Application | React.js, Node.js, MongoDB, Razorpay | Jan 2025 - Apr 2025

- Built a full-stack e-commerce application and integrated 2 transaction-critical services: OTP authentication and Razorpay payments.
- Streamlined the 3-stage cart, checkout, and payment journey to reduce purchase friction and address cart-abandonment points.
- Delivered responsive purchase screens for mobile, tablet, and desktop.

EDUCATION

Master of Computer Applications (MCA) | Madhav Institute of Technology and Science, Gwalior | 2025

Bachelor of Science in Computer Science | Jain College, Gwalior | 2019 - 2022

CERTIFICATIONS & ACHIEVEMENT

- NPTEL Certification in Cloud Computing - IIT Kharagpur | 2024
- Certification in C Programming - PS Softech | 2022
- Software Developer Contributor - 1st International Conference on Next-Generation Civil Engineering Solutions (ICNGCES 2025), Gwalior
